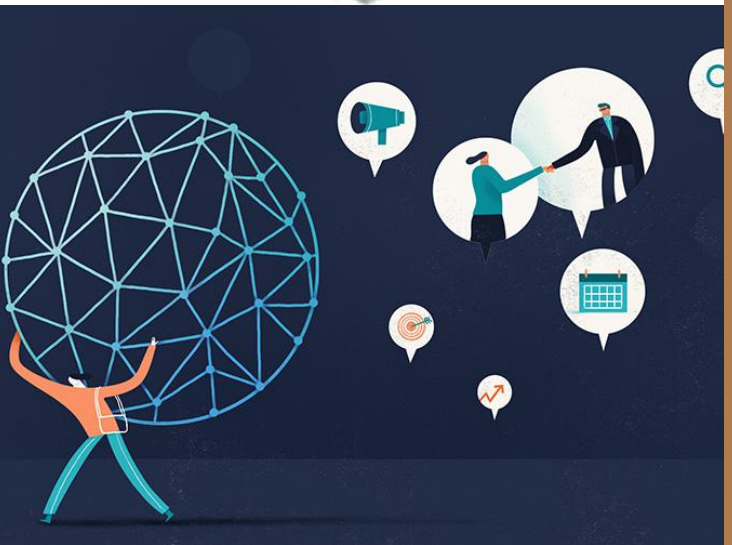
HACKER SPACE CLUB

Who are we?

A club of passionate and dedicated cybersecurity and Information technology students.



Our mission

Provide cybersecurity skill sets and technical resources to students and promote their professional networking

Our Plans

Meet and greet

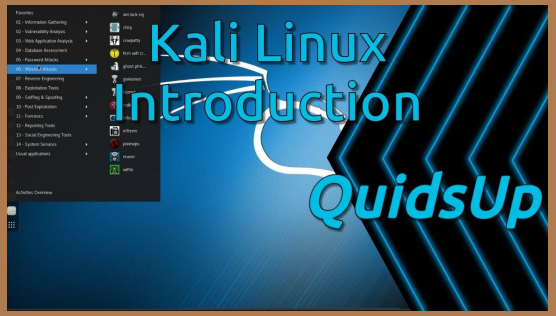
Where ?

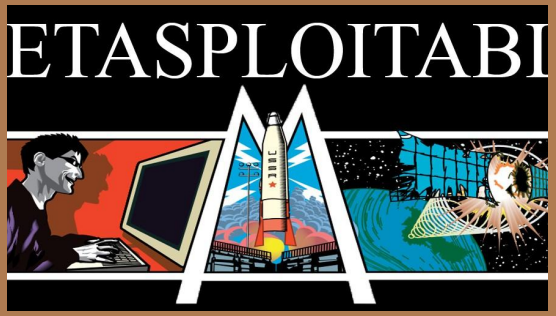
On our discord server.

Note: Link will be provided

Cyberlabs

- Teach each other how to start and use a virtual machine
- Teach how to use linux distribution such as Kali linux, metasploitable for information about security vulnerabilities and aids in penetration test and IDS signature development





Hacking event

We will have activities such as :

- Capture the flag where the winner can win a prize
- Wi-Fi password cracker, etc.

Point of contact

sdime401@students.pgcc.edu
